Joy Monologue

This Joy monologue is a quick and easy project that will bring some Christmas cheer to any room, or as always, make a great festive gift.

Gently sand off any rough edges from the monologue.

Choose three coordinating pages from the Winter Wonderland paper collection to cover your monologue in. Cut out two rectangles of paper to cover the 'J' and 'Y' and stick down with glue. While waiting for the glue to dry, cut out the 'O' using the template from our website and stick it down also.

Once dry turn your monologue over and trim off the overhanging edges with a craft knife. Paint all around the edges using a white paint - don't worry if you paint over the edges on the front, it adds to the effect.

Paint a holly flourish gold and embellish with rhinestones before adhering to your monologue. Tie some coordinating ribbon around the 'J' and your Joy monologue is finished and ready to display in your home.
