KC009 Red

Vagabond Paper Collection

KC002 Antique White

Sand all edges of each piece until smooth.

Choose your patterned papers from the Vagabond Collection and cover each piece of your album.

To cover each letter place your chosen paper face down on the table. Cover your letter with a thin layer of glue, and place down on to your paper. Using a craft knife carefully trim around each letter.

When all your letters are covered, embellish them.

Cover the letter "V" in the Traveller sheet (grey side). Then place your chosen photo, cropped to 4.5 x 5.5cm to fit behind the "O". Add a rubon to it so it just overlaps the bottom left corner of the photograph and can't be seen from the front when the album is closed.

On the letter "V" rubon your border along the right edge and place the pearls around the edge of the letter "O" leaving a small gap. (See image 3.) You can now place your flower at the bottom of the "V" to finish.

Give your chosen flourish several coats of antique white allowing to dry in between coats. Attach to album in desired position. Finish by adding the Everlasting rubon to the bottom right hand corner of the letter "E".

Tip

To add extra shine and to protect your album, you can add a thin layer of dimensional glaze over each page.
